

Yesterday we met 3 amazing actors, called Becky, Sammie and Joe. I really enjoyed seeing my friends and classmates ask interesting and excellent questions, and then seeing how the 3 actors enthusiastically answered to their questions. Now, I have learned that being an actor can be fun and sometimes quite hard when it comes to performing in public and learning the scripts. I think it could be fun to be an actor, and I would love to at least participate in one of our amazing school plays, which sadly, this year's one had to be cancelled. **Carmen Year 7**

The interview was really good because the actors inspired me. Acting was never one of my things I'd like to do but with the interview I think that I might like to be an actor. Being an actor is quite hard because you have to learn a script of by heart and also have to be in time. If you want to be an actor you have to have patience because it takes long to record and get the whole thing done. **Julian year 7**

They gave us tips and tricks to do scriptwriting. I would really like them to come back another day to school (this time with no virus ,so we can see each other). **Álvaro de Castellví Gómez, Y7J**

They were nice, intelligent and talented. We asked all sort of questions. It was a fun experience because we haven't done anything like this before. **Fran Year 7**

I liked it because you speak to people that's not always the people from the school. It's nice to speak to somebody else. Plus the lesson was more fun than usual so I enjoyed it. Also the people we spoke with were fresh and actually wanted to speak to us. If you wanted to be an actor you would get some tips from pros. **Oscar Year 7**

I loved yesterday because yesterday we met 3 cool actors that travelled around the world. There were two girls and one boy , the boy was called Joe and the two girls I can't remember their names. In my opinion I loved my question because now I have 3 more people in my bear pack. Those people are officially my friends. I loved the way that the actors had so much passion for their talent. And when someone mentioned the theatre in Madrid they all knew it plus one of them is from one of my favourite countries (south Africa) **Dylan Year 7**

They all lived together and told us about things like script writing by the way they talked I could tell that they were very good actors. My group partner Oscar asked what famous actor they wanted to meet they said Kerry. I appreciate that they took the time to download Microsoft teams and do a video call with y7. Even though I dislike acting, I liked the interview. **Hugo Year 7**

The actors were nice enough to let us ask them lots of questions and gave us the honest answer, I really enjoyed talking to the actors because there have been lots of times where I have considered becoming an actor myself and hearing them explain their passion towards theatre it made me even more set on becoming an actress. **Ave, Year 7**

They really inspired to me even though before I didn't like a lot theatre and now I will like a lot to learn a bit more about theatre after talking and interviewing them. It was a marvellous experience and I would like to repeat it! **Carlos, Year 7**

I learned that actors get into the character feeling what they feel, and I learned more things. Now I think I will act better on school plays. My group asked what their biggest fear on stage and it was the same as mine forgetting the lines. Sometimes I forget lines in school plays but then I remember them or some person near me reminds me. **Eva Year 7**

Yesterday we met 3 actors called Joseph, Becky and Sammie, I enjoy it because I learned what is to be an actor and what effort we need to do. To be an actor looks really funny, we can travel through lots of parts of the world while we enjoy disguising ourselves. It can also be beneficial for them and us, if someone acts in a theatre we can win a lot of money.

Alex Year 7

Joseph answered my question, his answer was:

Yes, his family are quite musical, enjoyed the theatre and went to art galleries. He was the only one how went to the university to study drama and they were really happy that he did that because his other siblings studied other things. I think that the part that I most enjoyed was when he answered my question. I feel better because I actually like acting and listening to actors that gave us advice is really good. **Micaela Y7**

They were very funny and nice with us. I think we couldn't have interviewed better actors and person. They respond with no fear and respond very clearly so we could all understand them being English and not being English. They also had a wonderful laugh, I don't of the others but every time they laugh, they made me laugh. I spent a great time with Joseph, Becky and Sammie and I would repeat it. **Mario Year 7**

They were very kind and they let us know things to have more imagination and a phrase they told us was ... if you are not nervous on stage of a theatre you are a robot. **Alvaro y7**

Yesterday I got to know 3 great actors that changed my view of the art of acting. Before I met them, I thought that acting was about just reading your lines, but after I met them I got to know that it wasn't just reading your lines. There was more than reading lines to acting, there is emotion, improvising when you forget your lines, helping others, working as a team, knowing your character, and challenging yourself, there was more to acting than I knew about and Sammie, Joseph, and Becky showed us.

Thanks again to Sammie, Joseph, and Becky

Yesterday we met three very kind actors which chose to answer our inquisitive questions!

They were so sweet and seemed to have lots of experience on this!

I learnt that meeting these actors made me want to be one, their job is splendid and made me clear that maybe I can be one too, knowing aswell that this is my dream since little, but this convinced me even more.

It was a pleasure meeting them and will like to meet soon and maybe see them act again!

Nora, Year 7
